Welcome to the August 2012 edition of the Radio HF Internet Newsletter.
Most of North America is suffering through hot, humid and dry weather. It's no different here in Montreal. Unfortunately many of the regions of North America are actually experiencing drought conditions. As a result, we are being warned to expect higher food prices later in the year because of the effect the weather has had on crops and livestock.

We've been watching quite a bit of the Olympic Games from London for the last two weeks. A lot of people criticize the games and the costs incurred by the host nation. I personally find the Games to be a "feel-good" experience for all involved. For a two-week period we seem to be able to put aside the problems of the world and enjoy the spirit of competition and national pride. There are so many horrible things going on around the planet each and every day, but for these two weeks, I just find it enjoyable to watch these incredible competitions and to see the remarkable capabilities of the human body and the dedication and perseverance displayed by the youth of the world. Yeah, I know, it sounds all Shangri-la like, but I still enjoy it. But it's back to the reality of this screwed-up planet after this weekend!

Our Monthly Special Zone for August features information on International Assistance Dog Week, International Youth Day, World Humanitarian Day and Left-Handers Day.

This month's virtual voyage around the world, in the "Where in the World Zone", takes us to the Middle East with a visit to Jordan. Officially the Hashemite Kingdom of Jordan, it is an Arab kingdom in Western Asia, on the East Bank of the River Jordan. The country borders Saudi Arabia to the east and south-east, Iraq to the north-east, Syria to the north and the West Bank and Israel to the west, sharing control of the Dead Sea with the latter. Jordan's only port is at its south-western tip, at the Gulf of Aqaba, which is shared with Israel, Egypt, and Saudi Arabia. Over half of Jordan is covered by the Arabian Desert. However, the western part of Jordan is arable land and forests. Jordan is part of the Fertile Crescent. The capital city is Amman.

I hope you find something in our collection of websites this month to be of interest to you.

New from Kenwood
Kenwood TH-K20A 144 MHz Handheld FM Transceiver

The successor of the TK-K2 series, even at first glance, it's obvious that Kenwood's stylish new TH-K20AK is in a class of its own. Though compact enough to fit snugly in either pocket or palm, it offers all the features necessary to make operation simple and sure. And despite its smart looks, this 144MHz FM transceiver is tough enough to survive the rigors of outdoor use, while delivering superb performance. So roam freely while enjoying the clear, reliable communications for which Kenwood is renowned.
Boasting 5.5 watts of RF output, Kenwood's new TH-K20A radio is powerful. Despite being small

enough to fit comfortably in the palm, it offers full-size performance and numerous features to ensure superb operating ease. Both display and keypad are backlit for nighttime use, and for added convenience everyday functions are pre-programmed to 11 keys with an additional PF key that can be assigned with a custom function. Plus, its construction is rugged enough to stand up to the worst weather.Inside and out, the TH-K20A is fully equipped for clear communications wherever and whenever needed.

For complete details on this Kenwood radio, please visit

VIA Rene Paquin, Waterloo, Ontario

June 2012 will mark the 200th Anniversary of the War of 1812, an important milestone in the lead-up to the 150th anniversary of Canada's Confederation in 2017.This commemoration is just one of the many events that are bringing Canadians together and will continue to link us in the years to come. The Government of Canada recognizes the War of 1812 as a defining moment in the history of our nation and has big plans to commemorate this event of national and international significance. The 200th anniversary of the War of 1812 is an unprecedented opportunity for all Canadians to take pride in our traditions, and our shared history. (Note: This site is available in French as well)

SKYWARN

http://skywarn.org/

VIA Tina Shields, Aberdeen Township, New Jersey

SKYWARN is a concept developed in the late 1960s that was intended to promote a cooperative effort between the National Weather Service and communities. The emphasis of the effort is often focused on the storm spotter, an individual who takes a position near their community and reports wind gusts, hail size, rainfall, and cloud formations that could signal a developing tornado. Another part of SKYWARN is the receipt and effective distribution of National Weather Service information.

Personal Emergency Communications
Staying in Touch Post-Disaster: Technology, Gear & Planning
Whether you're hit by a natural disaster or power outage, you can expect this problem: your cell phones, landline phones and Internet eventually stop working. What will you do? How will you communicate with your family or friends? While you may have set aside food and water for an emergency, what about a pair of radios with batteries? Have you considered long-range options? Do you know what your best options are?
This book will walk you through modern communications technologies, pros and cons of each, and recommendations to implement a realistic backup communications system.
Options reviewed include:
AM/FM, NOAA, FRS/GMRS and Other Radios
eXRS and Other Unusual Gear
Satellite Phones and Personal Locator Beacons
Amateur Radio - the King of Emergency Communications
Using the clear and simple recommendations in this book, you'll be able to reliably communicate with others in your region, without a cell phone, landline service, Internet, or need for grid power. When others can only wonder if their loved ones are safe, you will be able to talk with yours!
